

Air Charter King Air C90

Experience fast, comfortable business travel at a fraction of the price. Minimize wasted time, intrusive TSA screenings, connecting flights and unnecessary overnight hotel stays. Fly in comfort in a beautifully-equipped King Air, the most popular and safest business turboprop aircraft in the world.

With an unmatched safety record, the King Air C90 is reliable and comfortable. Cruise speed of nearly 300 MPH with powerful new 800 SHP GE turboprop engines get you to your destination quickly and relaxed. Fly into 1000's of smaller public airports nearer your destination, rather than crowded airline airports.

Our King Air features a stunning new paint job and a quiet, new leather interior with inflight XM satellite radio. Seating for up to 7 passengers. Folding rosewood worktables help you catch up on work, or just recline in your seat, catch a quick nap, and arrive rested and refreshed! Inflight beverage and catering service available.

For your comfort and safety, your pilots enjoy a brand new, fully updated cockpit, with the latest in GPS, weather, traffic, synthetic vision and autopilot technology. Experienced flight crews receive annual recurrent training at nationally-recognized flight schools to the highest FAA standards.

For more information, please contact Curt Drumm at Lakeshore Aviation. Aircraft is based in Manitowoc, WI, but relocation for passenger pickup anywhere is quick and easy. 1000+ mile range puts over 2/3 of the US airports at your fingertips nonstop. Call us today!
